To Mayor White, City Council Members and  
The Citizens of Houston:

I am pleased to submit to you the City of Houston's Quarterly Investment Report for the quarter ending December 31, 2003. This report presents the portfolio composition of investment pools the City Controller's Office manages.

The Report is organized as follows: Investment Portfolio Summary and Composition of all pools; an analysis of the General, Airport Construction and Tax Exempt pools; security listings by maturity for the quarters ending December 31, 2003 and September 30, 2003.

I hope you find this data useful and informative.

Respectfully submitted,

---

Annise D. Parker  
City Controller

**CITY OF HOUSTON  
QUARTERLY INVESTMENT REPORT  
Executive Summary  
For the Quarter Ending December 31, 2003**

The accompanying Quarterly Investment Report lists in summary form and in detail the investment positions of the City of Houston operating funds as of December 31, 2003. As of that date, the City had a total of approximately \$2.1 billion invested in various investment pools, each serving a specific purpose as described in the report. The general pool, which includes, among other funds, the City's operating funds, comprises approximately 73% of the total investment portfolio. All investments are governed by state law and city policy, which dictates the following investment objectives, in order of priority:

1. Safety
2. Liquidity
3. Return on Investments
4. Legal Requirements

Approximately 86% of the City's investments are currently invested in agency securities, such as Fannie Mae, Freddie Mac, and the Federal Home Loan Bank. The remaining amounts are invested in a variety of instruments, including United States Treasury obligations, municipal securities, high-grade commercial paper, repurchase agreements, and money market accounts. The securities contained in the city's investment portfolios generally have an AAA or equivalent long-term rating and at least an A-1, P-1 or equivalent short-term rating by the major bond rating companies, indicating a portfolio of the highest quality and lowest credit risk.

The weighted average maturity of the City's investments has historically ranged from about 1 year to about 2 years. The average maturity is currently 1.7 years. From an operating standpoint, approximately one-half of the funds invested are designated to be spent on capital projects such as roads and bridges, the water and sewer system, the airport system and the convention center and hotel. Investment maturities are arranged to coincide with needed expenditures for these capital projects. In addition investment maturities are arranged to meet short-term obligations, such as payroll and debt service payments.

Standard & Poor's Investment Services has assigned its AAAf credit rating and S1 volatility rating to the General Pool. The AAAf credit quality rating is the highest rating available from Standard & Poor's and reflects the extremely strong protection that the Pool's portfolio investments provide against losses from credit defaults or credit deterioration. The S1 volatility rating recognizes the Pool's sensitivity to changing market conditions as a result of its low market risk profile and conservative investment policies.

For the quarter ended December 31, 2003, the general pool yielded an average of 2.576% based on the amortized cost of the portfolio.

The General Pool consists of all working capital, construction, and debt service funds which are not subject to yield restriction under IRS arbitrage regulations. Combining the net cash-flows of all funds allows the City to invest in longer-term, higher-yielding securities without sacrificing the ability to meet short-term cash needs. The General Pool strategy, as outlined in the City's Investment Policy, combines a variation on the traditional laddered maturity strategy which matches assets and liabilities, with more active management strategies, such as yield curve analysis and bond swaps.

Note - During August 2001, the Trustee Pool was merged into the General Pool. The water and sewer debt issues to which the Trustee Pool related have been paid off, eliminating the purpose for which the Trustee Pool was established.

Standard & Poor's Investment Services has assigned its AAAf credit rating and S1 volatility rating to the General Pool. The AAAf credit quality rating is the highest rating available from Standard & Poor's and reflects the extremely strong protection that the Pool's portfolio investments provide against losses from credit defaults or credit deterioration. The S1 volatility rating recognizes the Pool's sensitivity to changing market conditions as a result of its low market risk profile and conservative investment policies.

The Airport Construction Pool consists of proceeds from the 1998 Aviation Series A & B bond issue which provided \$550 million net funds and the proceeds from the 2002 Aviation Series A, B, C, D-1 & D-2 bond issue which provided \$680 million net funds for Airport System improvements. These funds are subject to arbitrage regulations of the 1986 Tax Reform Act. A separate investment pool was created for these bond issues to facilitate effective management of the funds relative to its construction draw schedule and compliance with arbitrage requirements.

The Tax Exempt Pool consists of those funds which are subject to yield restriction and arbitrage regulation under the 1986 Tax Reform Act. This pool was created to do the following: demonstrate compliance with Internal Revenue Code regarding arbitrage, maximize the amount of interest earned and retained by the City from the investment of funds subject to the regulations, minimize the amount of rebate liability, and minimize the cost of administering the arbitrage tracking program. The Tax Exempt Pool strategy, as outlined in the City's Investment Policy, is to invest in high quality, short-term municipal bonds and one or more tax-exempt money market mutual funds in order to meet the liquidity demands of the City.
